SUMMARY

Results-driven **Software Engineer** with **4 years** of experience in **full-stack development** and scalable software solutions. Skilled in architecting and maintaining high-performance applications that meet both technical and business goals.

Proficient in modern web technologies such as **PHP, TypeScript, Laravel, React, TailwindCSS, and WordPress**. Experienced in building **end-to-end solutions**, from conception to deployment on **cloud servers**, with a focus on rapid development and clean, maintainable code.

Strong background in **problem-solving** and **analytical thinking**, with **1000+ problems** solved on online judges. Experienced in collaborating with senior developers, applying **industry best practices**, and staying current with **emerging technologies** to deliver innovative solutions.

EXPERIENCE

● Finnext

</> Software Engineer

May 2023 – Present

- Developed a **SaaS application** for PaystubHero that generates **3,000+ financial documents monthly**
- Built a **SaaS application** for QuickDoctorsNote
- Maintained application servers with continuous **bug fixes** and **feature updates**
- Created and maintained custom **WordPress plugins** and websites

● Systech Digital LTD

</> Software Engineer Intern

Jun 2024 – Sep 2024

- Developed a **Laravel-based e-commerce platform** with an **admin panel**
- Built a **custom web application** using PHP with a Laravel-inspired architecture
- Collaborated with senior developers to implement **industry best practices**

PROJECTS

● PaystubHero

(Laravel, React, TailwindCSS)

A SaaS application that generates Paystubs, W-2 Forms, 1099 MISC, 1099 NEC, and other financial documents. It has user profile management and a comprehensive admin dashboard for handling administrative tasks.

● Quick Doctor's Note

(Laravel, React, TailwindCSS)

A SaaS application that generates customizable medical notes by following step by step process. It has user profile management and a comprehensive admin dashboard for handling administrative tasks.

SKILLS

Languages

PHP, TypeScript, JavaScript, Go

Frameworks

Laravel, React, Inertia.js, Tailwind CSS, shadcn/ui, WordPress, Node.js

Others

MySQL, Redis, Git, Linux, Neovim, DigitalOcean

- **Bloghub** github.com/mt-shihab26/bloghub
(Laravel, React, TailwindCSS)
A comprehensive blogging platform built with Laravel, React, and TailwindCSS. Bloghub empowers developers, designers, and tech enthusiasts to share knowledge, discover content, and build meaningful connections through writing.
- **Acadence** github.com/mt-shihab26/acadence
(PHP, MySQL, TailwindCSS)
A web-based application built with raw PHP that streamlines academic performance tracking in educational institutions. Laravel-like code structure for maintainability.
- **Quick Redirect Manager** github.com/mt-shihab26/quick-redirect-manager
(PHP, WordPress)
A lightweight WordPress URL redirection manager plugin that uses WordPress's native options table for storage. Perfect for managing redirects without the overhead of additional database tables.

EDUCATION

- **Bangladesh University of Business and Technology (BUBT)**
 - 🎓 **B.Sc in Computer Science and Engineering**
August 2025 – Present
 - Pursuing a **Bachelor's degree in Computer Science and Engineering (CSE)**
 - Involved in **Competitive Programming contests** at the institution
 - Actively participating in the **Competitive Programming Community at BUBT**
