SHIHAB MAHAMUD

Software Engineer • Dhaka, Bangladesh • +880 1758-776344

mt.shihab26@gmail.com developershihab.com mt-shihab26 mt-shihab26

SUMMARY

Results-driven Software Engineer with **3+ years of experience** in **full-stack development** and building **scalable software solutions**. Skilled in architecting, developing, and maintaining high-performance applications that align with both technical and business objectives.

Proficient in modern web technologies, including **PHP, Laravel, JavaScript/TypeScript, React, TailwindCSS, and WordPress**. Experienced in delivering **end-to-end solutions**, from conception to **cloud deployment**, with a strong focus on rapid development and **clean, maintainable code**.

Strong background in problem-solving and analytical thinking, with over **1,000 problems solved** on online coding platforms. Experienced in collaborating with senior developers, applying industry best practices, and staying up to date with emerging technologies to deliver innovative and efficient solutions.

EXPERIENCE

Finnext

Software Engineer

May 2023 – Present· 3 yr 5 mo

- Architected and delivered paystubhero.com, a full-stack SaaS platform that generates 5,000+ financial documents monthly. Still maintaining the application from 2023.
- Developed practicescope.com, an AI-powered dental practice acquisition platform that benchmarks 30+ financial metrics and generates personalized acquisition reports
- Owned end-to-end feature delivery — from database design and API development to React UI and cloud deployment
- Developed and maintained custom WordPress plugins and client websites

PHP, Laravel, WordPress, JavaScript/TypeScript, React, Inertia.js, TailwindCSS, shadcn/ui, Go, PocketBase

Systech Digital LTD

Software Engineer Intern

Jun 2024 – Sep 2024· 3 mo

- Designed and built a custom web application using PHP following MVC architecture patterns
- Engineered a full-stack e-commerce platform with Laravel, including a complete admin panel for product and order management
- Collaborated with the development team on Laravel projects and contributed to ongoing Laravel development

PHP, Laravel, TailwindCSS, MySQL

PROJECTS

PROFESSIONAL PROJECTS

PaystubHero (paystubhero.com)

A SaaS application that generates Paystubs, W-2 Forms, 1099 MISC, 1099 NEC, and other financial documents. It has user profile management and a comprehensive admin dashboard for handling administrative tasks.

Laravel · React · PHP · TypeScript · Inertia.js · TailwindCSS · shadcn/ui · Stripe · mPDF

PracticeScope (practicescope.com)

An AI-powered SaaS platform for dental practice acquisitions that benchmarks 30+ financial metrics and generates personalized acquisition reports. Includes user authentication, Stripe payments, and an admin dashboard.

React · PocketBase · Go · TypeScript · TailwindCSS · shadcn/ui · Stripe

</> **Quick Doctor's Note** (quickdoctorsnote.com)

A SaaS application that generates customizable medical notes by following step by step process. It has user profile management and a comprehensive admin dashboard for handling administrative tasks.

PHP · TypeScript · Laravel · React · Inertia.js · TailwindCSS · shadcn/ui · Stripe · mPDF

PERSONAL PROJECTS

</> **Rawdo** (rawdo.developershihab.com)

github.com/mt-shihab26/rawdo

A task management application built from scratch on raw PHP, structured similarly to other PHP frameworks, with its own routing, dependency-injection container, database/model layer, validation, and session-based authentication.

PHP · TailwindCSS

</> **Digestly** (digestly.developershihab.com)

github.com/mt-shihab26/digestly

A newsletter/RSS digest app that lets users subscribe to feeds and receive a daily email digest, built with Laravel & React.

Laravel · React · PHP · TypeScript · TailwindCSS

</> **Strokr** (strokr.developershihab.com)

github.com/mt-shihab26/strokr

A keyboard-first typing speed trainer with live per-character feedback, a smooth animated caret, a WPM and accuracy chart after each test, multiple test modes, themes, keystroke sounds, and saved test history.

React · TypeScript · TanStack Start · TailwindCSS · GSAP · Drizzle ORM

OPEN SOURCE PROJECTS

</> **Orivo**

github.com/mt-shihab26/orivo

A Pomodoro timer for the desktop, written in Go with raylib. It also syncs todos with Todoist and logs daily work sessions back to each task.

Go · raylib · Todoist API

</> **Quick Redirect Manager**

github.com/mt-shihab26/quick-redirect-manager

A lightweight WordPress URL redirection manager plugin that uses WordPress's native options table for storage. Perfect for managing redirects without the overhead of additional database tables.

PHP · WordPress · Plugin
